

Young Researchers of CCG present

2nd Young Glial Cell Day

13 May 2025 – Montpellier, France

The event in brief

You are a Young Researcher working on Glial Cells?

This event is made for you! Come present your work through a talk or poster presentation!

Of course, Senior Researchers are more than welcome to join us and engage in fruitful interactions with students!

Plenary Speaker

Dr. Marianna BUGIANI
(MD, PhD)

Amsterdam University Medical Center,
Amsterdam, the Netherlands

“Proteomics to investigate glial physiology, pathology and selective vulnerability: the example of vanishing white matter”

Scientific Program

3 symposia

*Shaping Glial Research:
Models and Methods*

*Crossing Borders:
Glial Roles at the Brain’s Frontier*

*Glial Architects:
From Development to Disease*

2 poster sessions

1 Mentoring Session

Localization

« Institut Agro »
2 Place Pierre Viala
Campus La Gaillarde
34000 Montpellier

Social Event

LE SOCIAL BAR & CO « Le Social Bar »
48 Square de la Babote, 34000 Montpellier

Registration until May 2nd

Young Researchers of CCG present

2nd Young Glial Cell Day

13 May 2025 – Montpellier, France

Program

10:00-10:20 Reception

10:20-10:30 Opening Ceremony

10:30-11:30 Symposium 1 - Shaping Glial Research: Models and Methods

Chairs: XXX & XXX

Lolie GARCIA (LMN, Paris, FRANCE)

*Astrocytes and microglia in the brain of mouse lemur primate:
Histology-based characterization in young and old animals*

Sarah MOUNTADEM (Neurocentre Magendie, Bordeaux, FRANCE)

Astrocytes: the unforgettable partners of memory.

Selection on abstract

11:30-11:40 Sponsor Presentation

Christophe LATRILLE - QuantaCell

Title to determine

11:40-12:25 Coffee break + Poster session 1

12:25-13:25 Symposium 2 - Crossing Borders: Glial Roles at the Brain's Frontier

Chairs: XXX & XXX

Noémie DEPRET (CIRB, Collège de France, Paris, FRANCE)

Morphological characterization of the cortical gliovascular interface in health and disease

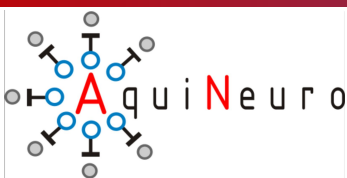

Nicolas OLIVIÉ (CIRB, Collège de France, Paris, FRANCE)

Early microglia in blood-brain barrier genesis and integrity

Selection on abstract

13:25-15:00 Lunch break + "Free" Poster session

Young Researchers of CCG present

2nd Young Glial Cell Day

13 May 2025 – Montpellier, France

Program

15:00-16:00 Plenary Lecture

Chairs: XXX & XXX

Dr. Marianna BUGIANI

Proteomics to investigate glial physiology, pathology and selective vulnerability: the example of vanishing white matter

16:00-17:00 Symposium 3 - Glial Architects: From Development to Disease

Chairs: XXX & XXX

Rafik DALI (Faculty of Biology and Medicine, Lausanne, SUISSE)

The role of Tanycytes in the Development of Hypothalamic Circuits controlling Energy Balance

Clémence DEBACQ (MCD/CBI, Toulouse, FRANCE)

Diving into Astrocyte Diversity: the Functional Enigma of the Olig2 subtype

Selection on abstract

17:00-17:45 Coffee break + Poster session 2

17:45-18:45 Mentoring - Science Careers Unlocked: Tips from Those Who Made It

Chairs: XXX & XXX

Dr. Elena AVIGNONE (Neurocentre Magendie, Bordeaux, FRANCE)

Senior Teacher / Researcher – Bordeaux University

Dr. Alexandre CHARLET (INCI, Strasbourg, FRANCE)

Research Director – CNRS

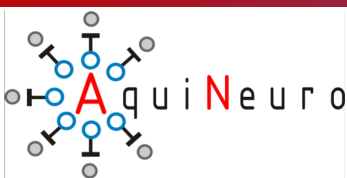

Dr. Corentine MARIE (ICM, Paris, FRANCE)

Research Engineer - ICM, Paris

18:45-19:15 Closing ceremony

19:15-19:30 General assembly
